DRASTIC ORDINANCE

Regulating Sale of Liquor at Lexington, Ky., Effective Monday.

Lexington, Ky., February 28.—The City Commissioners today adopted the most drastic ordinance regulating the sale of liquor in this city. The ordinance is effective Monday. It will become effective Monday morning. The license for the operation of a saloon is \$500 a year. No license can be granted until the Commissioners have held an inquiry into and passed upon the application. No saloon is to be permitted to open on Sundays.

All groceries, meat shops and markets are required to remain closed all day Sunday. The penalty is \$10 for each violation.

The ordinance adopted last fall forbids saloons in the "red light" district.

MARCH FLOOD POSSIBILITIES

In Pennsylvania Are Grave, Water Supply Commission Reports.

Harrisburg, Penn., February 28.—The Water Supply Commission has received reports in the last few days from its observers in the state flood warning service, showing that the snow in Pennsylvania varies from two to 45 inches on the level and that the streams in many instances are bound with from six to 12 inches of ice. The lower part of the Allegheny and the Monongahela and the Ohio are the only large rivers not frozen. "The conditions present potential flood possibilities, which may result seriously and cause tremendous loss," says a statement issued today by the commission. "Similar conditions prevailed in the winters of 1902 and 1904, when the greatest floods since 1889 occurred in Eastern Pennsylvania."

GLENN BILL IS DE-HORNED AND PASSED

Its Claws Trimmed, Teeth Drawn and All Horrible Features Eliminated By Painless Processes and Only a Pittance Left for Division in Shape of Spoils.

(Lexington Leader.)

Frankfort, Ky., February 28.—With its teeth pulled, its claws trimmed, and even its bark muffled down to a hic-cough, the Glenn-Green Insurance bill goes before the Governor on Monday for his approval.

Almost the only thing left of the jobber which lately was pushed into the General Assembly by Auditor Bosworth and Ruby Lafoon is the appropriation, and there is little of that.

The bill started out as a proposition to make the State Rating Board the supreme and in fact the sole maker of fire insurance rates in the State of Kentucky. Its avowed purpose was to not only make the basic schedules, but to fix the exact rate which insurance companies could charge on every piece of insurable property in the State. It was proposed to take from the insurance companies two per cent of their gross earnings in Kentucky, and with this fund employ an army of rate makers, experts, clerks and adjusters who would fix the rate on every dwelling and business property in the State, and the insurance companies could take it or leave it.

In real or assumed positiveness the companies with unanimity announced in advance that they would leave it. Mr. Lafoon, Senator Glenn and others interested were quoted in interviews as having made no compromise with the companies, but the bill as it passed the Senate and was concurred in by the House yesterday shows a sad mutilation by its own friends.

Sunday Ground Hog day in Sunday Schools.

Yesterday the city president of the Sunday School Union, spent the morning at the Bible School of the first Baptist Church.

Soon as he entered the Sunday School room the Superintendent met him with a hearty hand shake and immediately began to show him his school, and it is a school to be proud of. After the general exercises, the classes retired to their respective rooms, here was shown what a few wires and yards of calico can do in the way of artificial rooms.

The Superintendent requested the visitor to go in a class or teach a class, but showed him the school. A black-board was prominent and showed how the contest stood to date, and the banquet that the balance of the school will give to the winning clubs. There are fifteen points as follows, counted each Sunday as attendance—3; b, benevolence, missionary—2; c, benevolence, regular—2; d, lesson study—2; e, new scholars—2; f, visitors—2; g, Bibles—2. There the missionary envelope all give if nothing more than a cent, each cent counts; in January these collections went to \$100.

Closing exercises in the auditorium, each class has a large placard on the pew it occupies, and the Superintendent knows where to find them.

The school is a front liner, everyone of the requirements are met.

The school has the city divided into sections and captains and helps for his particular section. The school is graded and it carries the pupils through the grades. The school is carrying out the latest ideas in Sunday School work.

Official Meeting.
There will be a meeting of the official board of the Third Street M. E. Church Tuesday afternoon at 2 o'clock at the parsonage on Wall street.

"IN FLOWERY JAPAN."

Last night's blizzard prevented a large number of people from hearing Rector Fielding's illustrated talk at the Church of the Nativity, showing the evangelistic work of the Protestant Episcopal Church of America in "Flowery Japan."

All these lectures are revelations to the general public as to the results already attained by the church in the foreign fields, and especially in Japan since 1864 when the first Gospel couriers were sent there.

THE BUSINESS MEN OF TODAY

are fully aware of the value of good dressing as a business asset. They regard well made, perfect fitting suits as much of an essential as the attractive qualities of a well kept store or office. The only question is who is the tailor who can make them the most satisfactory garments? There can be no question of doubt if you place your order with us. Remember this is the only store in this section where you can buy Ed V. Price's make of 50 measure coats. See the new trousers we are showing for \$4 to \$6. They are reproducers. Farmers

Have you ever tried our way of borrowing money to pay for a farm?

You, of course, know that most farms are sold for one-third cash and the balance of the payment is represented by lien notes due in one and two years. You also know that there are times when it is impossible to pay these notes when they become due.

Our specialty is lending money on good farms for LONG PERIODS. Wouldn't you rather have five years to pay the balance than two years?

Any one expecting to buy a farm this March will do well to come in and consult us about getting the money.

We have been giving satisfactory service for 24 years.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad.
It is the Sign of the Times.
